

KEEP TRUMP OUT!

May 5, 2018

The Trump Organization

725 Fifth Avenue
New York, NY
10022

Attention: Donald Trump Jr.
EVP of Development & Acquisitions

Dear Sirs:

Re: The Wall

We understand that Trump plans to attend the G7 Summit in Charlevoix, Québec June 8-June 9. On behalf of Canadians from coast to coast, we do not want him to attend the summit. We do not want this miserable excuse for a human being to be in our country. As an old friend of mine would say, he is a waste of meat.

A group of proud Canadians have established *The Committee to Keep Trump Out*. We intend to build a Wall to prevent Trump from coming to Canada. We have determined that the most effective barrier will be to construct a Wall or more accurately, a very large wall of fans.....a Wall with 168 industrial fans. Our engineers and designers have determined that our Wall will cause maximum follicle disruption. We don't think Trump will want to "Hit the Wall."

Consistent with Trump's own financing strategies for walls, we believe it is appropriate for The Trump Organization to pay for our Wall. We do not yet know the final cost; but be assured that we are taking all appropriate steps to minimize the cost without compromising its effectiveness. Sadly, we will not be able to meet your company's standards for garish opulence. We will forward our final accounting next month.

We are very excited at the prospect of doing business with you. We have every reason to believe you will be very proud of our Wall. We certainly will be.

We trust the foregoing is satisfactory.

Kindest regards,

The Committee to Keep Trump Out

George Prévost
